Magento e-commerce software (not Magneto software or Magneto store) is the most powerful software for merchants to run their online store. You have to see it to believe it yourself! Check out these videos:

There are 3 best reasons why Magento is the leading choice for retailers:

1. Magento commerce is a flexible and robust solution for retailers to customise their store at any level they like from merchandising to multiple price promotion modules (see back end Magento store demo)
2. Magento e-commerce is helping merchants to maximise their creativity to reach untapped market at a fraction of cost (see front end Magento store demo)
3. Magento software is capable of assisting online shop owners to own and manage multiple stores at the same time! (see front end Magento multi store demo)

Magento has been downloaded 750,000 times, and you can take a sneak peak on our list of happy clients who have benefited from our Magento development services and Magento shopping carts:
